Lawson Ford Loses 6-3 and 6-2

Lawson Ford lost 6-3 and 6-2 last week end in the Toga Invitational Softball Tournament at Toga Community Center. The failure to get hits when they needed them was the big let down for Lawson's as they got men on base with two outs, but failed then to score the run.

In the first game Limitorque scored two runs in the first inning and Lawson's came back to score one as Ray Tweedy doubled and scored on an error. Lawson's didn't score again until the seventh when Buddy Wilcox singled, Charles Jamerson reached on a fielder's choice and Roger Morris tripled to drive in two runs. In between, Lawson's left runners on in the second, fourth, fifth and one in the seventh as they couldn't get the big hit. Limitorque added two in the second and one in the third and fifth. Limitorque outhit Lawson's 11-10, but got their hits when they counted.

In their 6-2 lost to Smith Carpet, they also left runners on base by not getting the big hit. They scored in the fourth and fifth and left two runners on in each of those innings after getting the one run. They also left two on in the first, and two in the sixth.

Roger Morris and Doug Mitchell each had two hits in the second game and Mike Dunford and Buddy Wilcox led the attack in the first game with three and two hits, respectively.

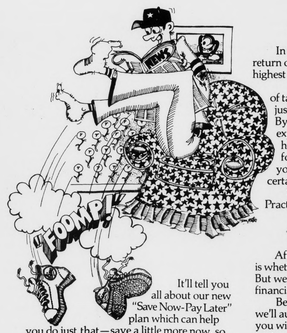
If the problem of saving money is more than you can sta... sit down and read this.



It'll tell you all about our new "Save Now-Pay Later" plan which can help you do just that—save a little more now, so you can have a lot more later.

Instead of handing you a savings plan, we'll help you plan your savings.

The main difference between it and other plans you've heard of is that it really is a plan. Not just a way to store some money for awhile, but an actual strategy for your financial development.

The strategy of saving.

In the first place, it guarantees you a 5... return on the money you deposit, the highest allowed by law.

What's more, it gives you the optio... of talking to a financial expert about just how much you should be saving. By looking at your present income and expenses as well as those of the future, he'll help you decide what's right for you. And show you exactly what you can expect to have saved by a certain date.

So you really can plan for the future. Practically and precisely.

If you leave it to us now. You'll get it all back later.

After that, the only thing left to chance is whether or not your deposits are made. But we can even make that (as well as your financial growth) automatic. Literally.

Because if you leave it to us each month, we'll automatically transfer any amount you wish from your checking to your savings account.

So your money will grow the way it should—consistently. And so even your long range goals, like the kids' education or a new home, won't take long to reach.

For complete details on the "Save Now-Pay Later" plan, stop by any Fidelity office.

It's one way to make sure you won't have to take the problems of saving money sitting down.
